School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides.

Contacts
Washington Colony School District
130 E. Lincoln Ave Fresno, Ca.93706

School District Name

District IPM Coordinator
IPM Coordinator's Phone Number Email Address

IPM statement

It is the goal of Washington Colony School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: (Example: Focus on long-term pest prevention)

Focus on long term pest prevention by using practices that prevent pests and helps control athletic field weed management.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

<table>

</table>

Pest management contracting

- Pest management services are contracted to a licensed pest control business.
- Pest Control Business name(s): Castech pest control services
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirements and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest identification is done by: Castech pest control, District maintenance staff
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by District maintenance staff
(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:
(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Kitchen area, sticky traps placed and monitored weekly for insect management.

Athletic fields monitored weekly for invasive weeds around perimeters and in turf grass.
Pests and non-chemical management practices
This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

<table>
<thead>
<tr>
<th>Pest</th>
<th>Remove food</th>
<th>Fix leaks</th>
<th>Seal cracks</th>
<th>Install barriers</th>
<th>Physical removal</th>
<th>Traps</th>
<th>Manage irrigation</th>

</tbody>
</table>

Chemical pest management practices
If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

see attached list

Healthy Schools Act
☐ This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training
Every year school district employees who make pesticide applications receive the following training prior to pesticide use:
☐ Pesticide specific safety training (Title 3 California Code of Regulations 6724)
☐ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports
☐ Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at [www.cdpr.ca.gov/schoolipm](http://www.cdpr.ca.gov/schoolipm). (Education Code Section 16711)

Notification
This school district has made this IPM plan publicly available by the following methods (check at least one):
☐ This IPM plan can be found online at the following web address: washingtoncolony.org
☐ This IPM plan is sent out to all parents, guardians and staff annually.

Review
☐ This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: August 1, 2023

I acknowledge that I have reviewed this school district’s IPM Plan and it is true and correct.

Signature: [Signature]
Date: 11/9/22

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
WASHINGTON COLONY SCHOOL DISTRICT  
2022-2023 ANNUAL PESTICIDE NOTIFICATION  
(Applicable Only for the Current School Year)

PARENTS: PLEASE READ AND COMPLETE THE INFORMATION BELOW AND RETURN IT TO YOUR SCHOOL PRINCIPAL

The following pesticide products are expected to be used during the current school year on District school sites:

<table>

</tr>
</tbody>
</table>

Parents/guardians can register with the school to receive notification of individual pesticide applications. Persons who register for this notification shall be notified at least seventy-two (72) hours prior to the application, except in emergencies, and will be provided the name and active ingredient(s) of the pesticide as well as the intended date of application.

Parents/guardians seeking access to information on pesticides and pesticide use reduction developed by the Department of Pesticide Regulation pursuant to California Food and Agricultural Code 13184, can do so by accessing the Department’s web-site at www.cdpr.ca.gov.

Los padres/tutores podrán registrarse con la escuela para recibir notificación de aplicaciones de cada pesticida individual. Las personas quienes se registren para esta notificación serán informadas en menos de setenta y dos (72) horas antes de la aplicación, excepto en emergencias, y serán proporcionadas con el nombre y componente(s) activo(s) del pesticida y también con la fecha de aplicación deseada.

Los padres/tutores solicitando acceso a información sobre pesticidas y reducción del uso de pesticida elaborado por el Departamento de Regulador de Pesticida conforme al Código de Alimento y Agricultura de California 13184, pueden encontrarla en el sitio-web del Departamento www.cdpr.ca.gov.

Firma del Estudiante
(Si el estudiante tiene o es mayor de 18 años)
**ESSENTRIA IC-3 INSECTICIDE CONCENTRATE**

**KILLS:** Crawling and flying insect pests as listed
Indoors, Outdoors, Fogging, Turf and Ornamental, On Animal and Mosquito Misting Applications

**ACTIVE INGREDIENTS:**
- Rosemary Oil 10%
- Geraniol 5%
- Peppermint Oil 2%

**INERT INGREDIENTS:**
- White Mineral Oil: 10%
- Ethanol: 2%
- Propylene Glycol: 85%
- TOTAL: 100%

**PRECAUTIONARY STATEMENTS**
**CAUTION**
- May cause eye and skin irritation. Avoid contact with eyes, skin and clothing.

**PERSONAL PROTECTIVE EQUIPMENT (PPE):**
- Handmade concentrates are required to wear:
  - Protective eyewear
  - Chemical-resistant gloves made of nitrile, neoprene or natural rubber

**USER SAFETY RECOMMENDATIONS:**
- Read entire label carefully before using.
- Keep out of reach of children.
- Store out of reach of pets.
- Wash thoroughly and put on clean protective clothing after handling product.
- Wash outside of the bucket before removing.

**FIRST AID**
- IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye.
- IF ON SKIN: Wash exposed area thoroughly with soap and water.
- IF INHALED: Move exposed person to fresh air. If breathing problems persist, get medical attention.
- IF INGESTED: Do not induce vomiting. If symptoms of poisoning appear, get medical attention immediately.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not use, pour, spill or store near heat or open flame. Store in original containers.

**DIRECTIONS FOR USE**
- READ ENTIRE LABEL. USE IN ACCORDANCE WITH LABEL INSTRUCTIONS.

**COXIDINICIDE**
- Coxidinicide (Essentria IC3) is intended for use in and around buildings and structures as well as modes of transportation.

**INDOOR USE AREAS:** Includes, but is not limited to, apartment buildings, homes, hospitals, hotels, houses, industrial buildings, kitchens, laboratories, manufacturing facilities, supermarkets, motels, nursing homes, offices, buildings, schools, libraries, supermarkets, warehouses, and similar structures.

**OUTDOOR AREAS:** Includes, but is not limited to, building foundations, drive-in restaurants, drive-in theaters, golf courses, parks, playgrounds, recreational areas, schools, urban areas, lawns, landscapes around, fountains, and marinas.

**NOTES:**
- For sensitive indoor surfaces such as vinyl, plastic, laminating, wool, leather, etc., test a small area-visible area first before spraying. This includes vinyl siding, outdoor furniture, screen doors and windows, etc.

- In areas where these products may not be suitable, such as food products, such as food products, paint and other products may be used. Read and follow all label directions carefully.

**INDOOR USE**
- Do not apply directly to food products. Considerable amounts of this product are required to use in physical, environmental and chemical pest control measures.

**INFORMATIONAL STATEMENTS**
- In the event of contact with the eyes, wash the eyes immediately with large amounts of water. If irritation persists, consult a physician.
- In the event of inhalation, move the affected person to fresh air and consult a physician if irritation persists.
- In the event of ingestion, do not induce vomiting. Consult a physician if symptoms of poisoning appear.

**ADDITIONAL INFORMATION**
- In the event of contact with the skin, wash the skin with soap and water for at least 15 minutes. Consult a physician if irritation persists.
- In the event of contact with the eyes, wash the eyes immediately with large amounts of water. If irritation persists, consult a physician.
- In the event of inhalation, move the affected person to fresh air and consult a physician if irritation persists.
- In the event of ingestion, do not induce vomiting. Consult a physician if symptoms of poisoning appear.

**ADDITIONAL INFORMATION**
- In the event of contact with the skin, wash the skin with soap and water for at least 15 minutes. Consult a physician if irritation persists.
- In the event of inhalation, move the affected person to fresh air and consult a physician if irritation persists.
- In the event of ingestion, do not induce vomiting. Consult a physician if symptoms of poisoning appear.

**ADDITIONAL INFORMATION**
- In the event of contact with the skin, wash the skin with soap and water for at least 15 minutes. Consult a physician if irritation persists.
- In the event of inhalation, move the affected person to fresh air and consult a physician if irritation persists.
- In the event of ingestion, do not induce vomiting. Consult a physician if symptoms of poisoning appear.

**ADDITIONAL INFORMATION**
- In the event of contact with the skin, wash the skin with soap and water for at least 15 minutes. Consult a physician if irritation persists.
- In the event of inhalation, move the affected person to fresh air and consult a physician if irritation persists.
- In the event of ingestion, do not induce vomiting. Consult a physician if symptoms of poisoning appear.

**ADDITIONAL INFORMATION**
- In the event of contact with the skin, wash the skin with soap and water for at least 15 minutes. Consult a physician if irritation persists.
- In the event of inhalation, move the affected person to fresh air and consult a physician if irritation persists.
- In the event of ingestion, do not induce vomiting. Consult a physician if symptoms of poisoning appear.

**ADDITIONAL INFORMATION**
- In the event of contact with the skin, wash the skin with soap and water for at least 15 minutes. Consult a physician if irritation persists.
- In the event of inhalation, move the affected person to fresh air and consult a physician if irritation persists.
- In the event of ingestion, do not induce vomiting. Consult a physician if symptoms of poisoning appear.
SAFETY DATA SHEET ER-3 by EcoVanger Insect Killer Concentrate

4. FIRST AID MEASURES

IF SWALLOWED: Call the Poison Control Center or doctor if necessary. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES: Hold eyelids open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the last 5 minutes, then continue rinsing eye. Seek medical advice if eyes still feel irritated.
IF INHALED: Move person to fresh air. If person is not breathing, call 9-1-1 or an ambulance. Take the container and product label with you when seeking medical attention.

5. FIRE FIGHTING MEASURES

FLASH POINT: Not combustible
FLAMMABILITY LIMITS: Non-flammable
FIRE FIGHTING MEDIA: Use fire-fighting media for surrounding fire.
FIRE FIGHTING PROCEDURES: Firefighters wear protective clothing and self-contained breathing apparatus. If water is used to fight fire, control and contain spill from flowing water supplies or the environment.

6. ACCIDENTAL RELEASE MEASURES

ACTION TO TAKE FOR SPILLS/LAEAKS: Keep unauthorized personnel away. Wear personal protective equipment on exposure. Wash exposed area with water, then flush with water using suitable equipment. Wash exposed area with water, then rinse with water using suitable equipment. Collect the spilled material, any contaminated soil, water and absorbent and place in a waste container for proper disposal. Notify applicable government authority if release is reportable or could adversely affect the environment. Dispose of in accordance with local regulations.

7. HANDLING AND STORAGE

PRECAUTIONS IN HANDLING: Avoid contact with of eyes, skin. Wash thoroughly after use. If clothing becomes contaminated, wash thoroughly before re-use.
PRECAUTIONS TO BE TAKEN IN STORAGE: Store at room temperature. Avoid excessive heat.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

EYE PROTECTION: Not normally required.
SKIN PROTECTION: Not normally required.
HAND PROTECTION: Not normally required.
RESPIRATORY PROTECTION: Not normally required.
ENGINEERING CONTROLS: Normal room conditions.

9. PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE: Light white liquid.
ODOUR: Slight sweet smell.
HEALTHY SCHOOLS ACT
EXEMPT PESTICIDES

Anyone using these products at schoolsites must receive HSA training. IPM plan, posting, notification, recordkeeping, and reporting are not required.

- Self-contained bait stations
- Gel and paste crack-and-crevice treatment
- Sanitizers and Disinfectants
- FIFRA 25(b) minimum-risk pesticides

Pest Control Businesses ONLY: In addition to training, licensed pest control businesses report all registered pesticides used at schoolsites.

U.S. EPA registration number will not appear on these product labels
